

Invitation to Stakeholder Consultation

atmosfair is currently conducting a Stakeholder Consultation as part of the Gold Standard certification of the project. This is an opportunity for anyone interested to provide feedback and comments on the project and help us to improve it. This process is a key part of the Gold Standard certification of the project, which also ensures that all stakeholders can have their say and potential negative impacts of the project are avoided. A project description and feedback forms will therefore be available here until 28.06.2021. The feedback forms can be submitted to Annika Richter (richter@atmosfair.de). Alternatively, feedback can also be submitted to the Gold Standard (info@goldstandard.org).

Further information and documents on the project can be found at the following link:
<https://registry.goldstandard.org/projects/details/2780>.
