

**\*\*\* 1,000 efficient stoves assembled in new atmosfair factory in Kano \*\*\***

The establishment of our own efficient cookstoves production in Kano in northern Nigeria is ongoing. The atmosfair team has now assembled the first 1,000 stoves! This we still imported time components from Germany, but the very soon, the entire production chain of the Save80 stove will take place in Kano.

The atmosfair team assembling Save80 stoves in Kano Assembled Save80s.

They did it and assembled the first 1.000 Save80s! The Team in Kano: Salama, Annabel, Oyedo, Philip und Okpara
